

Port of Baltimore Generating Jobs for Maryland

Brought to you by the Maryland Department of Transportation Maryland Port Administration

August 28, 2017

Dear Subscriber,

Please see below message from Ports America Chesapeake regarding Seagirt Marine Terminal:

Ports America Chesapeake is forecasting increased terminal volumes due to vessel schedule changes. Activity on the facility will be increased during the weeks of August 28th and September 5th, potentially impacting the supply chain. Therefore, please use non-peak hours to assist in expediting your visits (0600-1000 and 1500-1700).

We are adding additional resources to support the increased volumes and your participation in utilizing the non-peak hours is vital for our success.

Thank you for your understanding and we welcome your comments or suggestions.
