

Bay Enhancement Work Group (BEWG)

The Bay Enhancement Work Group provides advice to the Maryland Port Administration (MPA) and its dredged material management program partners on environmental issues related to placement of dredged material. BEWG participants represent resource management and regulatory agencies at the federal and state level, as well as stakeholder groups including fishermen and communities. BEWG meets only as necessary. Staff support is provided by MPA's Harbor Development section and by Maryland Environmental Service.

To contact committee representatives, send an e-mail to greenport@marylandports.com or call the Maryland Port Administration at 410-385-4438.
