

Mercedes-Benz

8.1. Parking and handling the vehicles

The vehicles are to be parked in an orderly fashion in the lanes and parking bays:

Vehicles are parked with the left wheel on the left line (= standard in Europe) or according to another uniform system.

On parking the vehicle, care must be taken that:

The vehicle has been left in 1st gear or “P” position with the handbrake on.

All electrical appliances are deactivated.

No labels are lying on the dashboard.

Left wheel parked on the line

Key left hanging from string on steering column, remove from ignition

All Windows, and sunroof closed

All electrical consumer off (A/C, Radio, Lights, flashers)

No Markings on exterior or interior of vehicle

No labels left on dash

No Trash left in vehicle, or facility parking lot

No Speeding

The windscreens and other glass surfaces have not been marked, in particular have not been written on with wax crayons.

Any bird droppings are to be removed from the vehicle immediately.
