

# 2024 Foreign Commerce Statistical Report

# THE PORT OF BALTIMORE'S WATERBOURNE COMMERCE 2024

## **Summary:**

The Port of Baltimore's state-owned public and private marine terminals handled 45.9 million tons of cargo in 2024, making it the second-best ever year after 2023 when the port handled a record 52.3 million tons. The total cargo had a value of \$62.2 billion, third-most in the Port's history.

While bulk products make up approximately 77% of the POB's total international cargo, general cargo products account for 91% of its value.

In 2024, the Port of Baltimore handled 848,628 tons of roll on/roll off farm and construction machinery, which again was number one among all U.S. ports.

The POB handled the total of 741,215 TEUs of containers and 749,799 auto units.

The Port of Baltimore is ranked as the 10<sup>th</sup> largest port in the USA in terms of foreign cargo tonnage and 11<sup>th</sup> largest in terms of dollar value.

The Port of Baltimore consists of state-owned marine terminals managed by the MPA and privately owned marine terminals. Approximately 78% of all general cargo tons move through the MPA's public terminals, while the private terminals handled most of the Port's bulk commodities.

## **Definitions:**

Foreign Cargo excludes domestic cargo that moves between U.S. ports and between the U.S. mainland and its territories (i.e. Puerto Rico). The U.S. Army Corps of Engineers reports domestic cargo shipments for the U.S. ports, but this data is not made available until nearly a year after the Census Bureau's foreign cargo data is released.

The vast majority of domestic waterborne cargo within the Port of Baltimore consists of coal, petroleum products, sand and gravel moving within the Chesapeake Bay or to nearby ports along the U.S. East Coast.

General cargo is defined as containerized cargo, automobiles, agriculture/construction machinery (Ro/Ro) and break bulk shipments of forest products, steel, etc.

The U.S. Census Bureau's data used in this report compiles data by ports within the U.S. When ranking ports on a national basis, ports operating under the same port authority are combined, such as New York / Newark (Port of NY/NJ) and Savannah / Brunswick (Georgia Ports).

## **Data Sources:**

All data comes from the U.S. Census' USA Trade Online website unless otherwise noted.
