**SECTION II
DOCKAGE**

Rule: 34-016

DOCKAGE:

A. Rates:

1. Dockage will be assessed against the vessel and is payable by its owner or operator based on the lower of net registered tonnage (NRT) or length-over-all (LOA) of the vessel for the period the vessel remains at the berth. The period of time for which dockage shall be assessed against a vessel shall commence when such a vessel is made fast to the wharf, pier, bulkhead, bank, or to another vessel so berthed, and shall continue until such vessel has completely vacated the berth.

2. Dockage will be assessed against the vessel on the basis of 30 cents per net registered ton per 24 hour period or of the following LOA scale on a per foot or fraction thereof basis per 24 hour period, provided, however, that a minimum dockage charge of \$843.00 per vessel for the first day at the berth shall apply regardless of whether the NRT or LOA basis is used.

0 to 499'	\$3.65
500' to 599'	\$4.65
600' to 699'	\$5.60
700' to 799'	\$6.60
800' to 899'	\$7.60
900' and up	\$8.60

Following the first 24 hour dockage period, the vessel will be assessed an hourly rate based on the initial 24 hour dockage period charge, until the vessel has vacated its berth.

3. Idle Status: Whenever a vessel with the permission of the Administration is berthed at a terminal in idle status, prior to the commencement or subsequent to the completion of loading and or unloading cargo, a dockage charge of \$35.13 per hour or fraction thereof, will be assessed against the vessel and payable by the vessel's owner or operator. The application of the minimum dockage charge in Section 2 of this rule precludes the assessment of any idle status for vessels at berth 24 hours or less. Idle status will be assessed only for those hours prior or subsequent to any 24-hour active loading or discharging dockage period, except that inactive status shall be assessed for the Legal Holidays

4. Inactive Status: Dockage for vessels not using the terminal to load or discharge cargo shall be \$843.00 per 24 hours or fraction thereof, utilities not included. Arrangements for and cost of utilities of any kind are the responsibility of the vessel owner or agent. Permission for such dockage shall be at the discretion of the Administration. When available, the Administration may at its sole discretion arrange for vessel berthing on a month-to-month basis at a charge to be negotiated on a case-by-case basis.

5. For the purpose of the rates set forth in sub-section A.2 of this rule, the highest published measurements shown in Lloyd's Register of Shipping and its supplements for a subject vessel shall be used in determining net registered tonnage or LOA.

6. Passenger ships berthed for the purpose of loading and unloading passengers and baggage (embark/disembark) will be assessed dockage for each 24-hour period or fraction thereof at the length overall (LOA) rate of \$3.25 per linear foot with a minimum charge of \$1,040.00.

7. Passenger ships berthed for the purpose of loading and unloading passengers for port visits (port call) will be assessed dockage for each 24-hour period or fraction thereof at the length overall (LOA) rate of \$3.25 per linear foot with a minimum charge of \$1,040.00.

8. Non-self-propelled Vessels:

(a) The following dockage charges shall be assessed against intra-harbor barges and/or lighters used to transport freight originating in and destined to points or places within Baltimore Harbor. These charges do not apply where the barge and/or lighter is loading and/or discharging to or from a vessel berthed at the terminal. The following dockage charges shall be assessed:

Barges/lighters:

Up to 150'	\$ 73.00 per 24 hrs or fraction thereof
151' to 220'	\$123.00 " " " "
221' and over	\$295.00 " " " "

(b) Dockage charges shall be assessed against seagoing and/or inter-harbor barges and/or lighters used to transport freight between points or places within Baltimore Harbor on the one hand, and points or places within other harbors on the other hand. The charges shall be as contained in subsection A.2 of this rule above, with a minimum charge of \$1,080.00. These charges do not apply where the barge and/or lighter is loading or discharging directly to or from a vessel berthed at the terminal.

(c) Lash Barges will be assessed at \$30.00 per barge per 24 hour period or fraction thereof.

9. Service Vessels:

Service Vessels shall be assessed \$20.25 per linear foot of berth space. Permission for such dockage shall be at the discretion of the Administration. When available, the Administration may at its sole discretion arrange for vessel berthing on a month-to-month basis at a charge to be negotiated on a case-by-case basis.

10. Roll-on/Roll-off Platform (South Locust Point Marine Terminal Only):

In addition to dockage, a flat charge of \$730.00 per vessel call will be charged for the first 24 hour period at the commencement of cargo operations. Following the first 24 hour period, the vessel will be assessed an hourly rate based on the initial 24 hour period charge until the vessel has vacated its berth.

11. Pier 10 Surcharge (North locust Point Marine Terminal only):

Effective November 19, 2012, in addition to dockage, a surcharge of \$3,333.00 per vessel call applies.

12. The Administration, at its discretion, reserves the right to rescind a previously granted berth assignment and use of the terminal facility for a “cruise vessel port call” if, through no fault of the Administration, that cruise berth must made available to a “home port cruise vessel” that requires embarking or debarking of passengers under the auspices of Customs and Border Protection. The Administration will use its best efforts to allocate a replacement berth but shall have no obligation to do so. (“A”)

B. Dockage Rules and Regulations:

1. Application for Berth Assignment:

Vessels, their owners or agents, desiring a berth at terminal shall apply to the Administration for berth assignment, as far in advance as possible.

2. To Make Fast To or Remain at Wharf Without Consent of Person in Charge Prohibited:

Any vessel made fast to, moored in front of, or remaining fastened to or moored in front of the wharf, in violation of this item shall be subject to removal by or at the order of the Administration. Such removal shall be, at the expense of such vessel, and its owner or operator, to such other places as the Administration may elect.

3. Mooring Facilities:

No person shall make fast any line or moor to any wharf or dock or to any shed or fender piles supporting same, except to the mooring bollards, posts, or bits provided for that purpose.

4. Movement of Vessels:

Vessels shall be moved or leave berths controlled by the Administration at the direction of the Administration. Any vessel, which is not moved promptly upon notice to move, may be shifted and any expenses involved, damage to vessels or to the wharf during such removal, shall be charged to the vessel.

5. Safe Refuge:

A Vessel obtaining safe refuge at any MPA pier, if granted by the Administration in its sole discretion, shall accept all risks and full responsibility for any and all damage to property and bodily injury to persons resulting from said Vessel's safe refuge status while berthing at MPA facilities. Vessels are not entitled to any Force Majeure protection.

In consideration for obtaining refuge, the Vessel, its owners, and Master shall indemnify the Maryland Port Administration and the State of Maryland for all property damage or personal injury emanating from safe refuge status, regardless of negligence on the part of the Vessel.

Vessel owners and/or operators, by requesting permission to remain at an MPA terminal through the submission of the Commercial Vessel Authorization Checklist/Survey, are acknowledging that it is subject to the terms in this Section II.B.5 and confirms the terms by which the vessel will be allowed to remain at a MPA terminal.

C. Crew Aboard:

All working cargo vessels berthed at a terminal shall at all times have sufficient crew to comply with all rules and regulations of the Administration and the Port of Baltimore and to otherwise efficiently operate said vessels. All vessel crew members are restricted by the Prohibited Activity in Rule 34-029. SECTION IV LIABILITY AND INDEMNIFICATION

Rule: 34-018

LIABILITY AND INDEMNIFICATION:

A. All persons to whom berths, wharves, transit sheds, mechanical equipment or other Facilities are assigned shall be responsible for and liable to the Administration for any damage occurring to such property during their tenancy, occupancy and/or Usage. Such responsibility and liability shall be without regard to whom shall cause the damage, unless caused by the Administration's own negligence.

Unless caused by the Administration's own negligence, all Users indemnify, defend and save harmless the Administration from and against all losses, claims, demands, or suits for damages, including death and personal injury, and including court costs and attorney's fees, incidental or resulting from the operations, acts or omissions of the Users on the Facilities or Usage of the Facilities.

B. The Administration assumes no liability for delay, loss or damage to equipment, freight or cargo handled or trans-shipped through the terminal Facilities, including but not limited to delay, loss, or damage caused by strikes, fire, water, action of the elements, theft, or other causes. The Administration in any event shall be liable only for damage resulting from its own failure to exercise due and proper care in performing the services and affording the Facilities provided herein. In no case shall the Administration be liable for a sum in excess of \$500.00 per package or per customary freight unit (both terms as defined below), for non-packaged objects unless the User prior to the commencement of such services or its Usage of the Facilities, declares a higher value in writing and pays to the Administration, in addition to the other charges for such services as herein set forth, a premium computed at one percent (1%) of the declared value of each package or non-packaged object.

In the event of a higher value being declared in writing and the payment of the one percent (1%) premium, the liability of the Administration, if any, for damage resulting from its own failure to exercise due and proper care in performing the services and affording the Facilities provided for herein shall be determined on the basis of such declared value or a pro rata portion of such declared value in the case of a partial loss or damage, provided such declared value does not exceed the actual value of the cargo.

The word “package” shall include any container, van, trailer, pallet or other type of cargo unitization whatsoever. The word “customary freight unit” shall mean the unit on which ocean freight was or is to be calculated for any objects not shipped in a “package”. In no event shall the Administration be liable for more than the loss or damage actually sustained. The Administration shall not be liable for any consequential, incidental or special damages in connection with its performance of services or furnishing of Facilities, and it shall have the option, at its sole discretion, of replacing any lost cargo or property and/or replacing any damaged cargo or property.

C. The Administration will not be liable for any delay, loss or damage arising from strikes of any persons in their employ or in the service of others or from any causes which are unavoidable or beyond the Administration's control. The Administration accepts no responsibility for any damage or accidents occurring when its equipment and/or operators or employees are furnished to perform work for others, except that caused by the Administration's own negligence.

D. Claims for loss or damage must be submitted in writing immediately upon discovery, and in no event later than twenty (20) days from occurrence, to the Administration.

E. Notwithstanding anything to the contrary contained herein, the Administration shall be discharged from any and all liability for any loss or damage to the goods or any claim of whatsoever kind, nature, or description with respect to or in connection with the goods unless suit is brought against the Administration within one (1) calendar year after delivery of the goods to the Terminal or the date when the goods should have been delivered. Suit shall not be considered “brought” for the purposes of this rule unless process shall have been actually served and/or jurisdiction obtained over the Administration within the specified one (1) year period.

F. Notwithstanding anything to the contrary contained herein, the Administration’s obligations as stated in this Rule 34-018(A), (B), (C), (D) are subject to the provisions of the Maryland Tort Claims Act, the availability of insurance and/or appropriations by the Maryland State General Assembly, and are applicable to the extent permitted by law.
